About Sinopec

A Strong Foundation, the Renowned Brand

China Petroleum & Chemical Corporation is one of the largest oil and petrochemical products supplier in the world.

Sinopec Lubricant Co., Ltd. is a subsidiary of **China Petroleum & Chemical Corporation** and has a history of more than 60 years in the professional business of product research and development, manufacturing, and marketing of lubricants. Sinopec Lubricant Co., Ltd offers more than 2,000 varieties of products in 21 categories, with a strong focus on engine lubricants. Its products are widely used in the automotive and other industries.

Sinopec's Value Proposition

Shaping a Bright Future with Innovation, Building a Better Life with Responsibility

With promoting low-carbon transformation of global energy as its goal, Sinopec is committed to leading the future of the energy and chemical industry with innovation, shouldering its responsibilities to refuel for a better life, and working with all stakeholders to build a better life.

Cleaner Energy, Better Life.

Why Sinopec?

70+ countries that SINOPEC provides lubricating services around the world

140+ million tonnes of refined oil products

more than **30,800+** service stations worldwide

Sinopec Xtreme 5W-40 4T Motorcycle Oil (SN/MA2)

Sinopec Xtreme 5W-40 4T Motorcycle Oil (SN/MA2) is formulated with fully synthetic base oils and a multifunctional additive system. It meets the requirements of the Japanese Automobile Standards Organization (JASO) as a JASO MA2 quality product and is successfully registered into the JASO Engine Oil Standards Implementation Panel. At the same time, this product is rated as an API SN service category lubricant.

Available Size

1 Litre

Applications

- High-performance, air or water-cooled, four-stroke gasoline engines, especially suitable for motorcycles with high horsepower and requiring extended engine hi-rev operation.
- Fortified with DUAL PROTECH™ technology for enhanced cleanliness and power output.
- Also suitable for gasoline motorcycle engines that requires a lower specification.

Features and Benefits

- Excellent engine start-up and warm up sequence.
- Very good temperature stability with ultra-long lubricant life.
- Protects engine and transmission from start to full power.
- Ultimate engine protection of its class.
- Improves engine power.
- Excellent cleaning properties.
- Formulated for extremely low oil consumption.
- Enhanced seal protection.
- Optimum frictional characteristics to prevent clutch slippage.

Sinopec Xplore 10W-30 4T Motorcycle Oil (SN/MA2)

Sinopec Xplore 10W-30 4T Motorcycle Oil (SN/MA2) is formulated with synthetic technology base oils and a multifunctional additive system. It meets the requirements of the Japanese Automobile Standards Organization (JASO) as a JASO MA2 quality product and is successfully registered into the JASO Engine Oil Standards Implementation Panel. At the same time, this product is rated as an API SN service category lubricant.

Available Size

1 Litre

Applications

- High-performance, air or water-cooled, four-stroke gasoline engines, where a highest quality oil specification of JASO MA2 is required.
- Fortified with DUAL PROTECH™ technology for enhanced cleanliness and power output.
- Also suitable for gasoline motorcycle engines that require a lower specification.

Features and Benefits

- Perfect balance between premium engine protection and engine start-up/ warm up sequence.
- Protects engine and transmission from start to full power.
- Developed for extended engine and oil life.
- Enhanced temperature stability.
- Improves engine power and fuel efficiency.
- Reinforced engine cleanliness.
- Outstanding oil loss characteristic with enhanced seal protection.
- Optimum frictional characteristics to prevent clutch slippage.

Sinopec Xplore 10W-40 4T Motorcycle Oil (SN/MA2)

Sinopec Xplore 10W-40 4T Motorcycle Oil (SN/MA2) is formulated with synthetic technology base oils and a multifunctional additive system. It meets the requirements of the Japanese Automobile Standards Organization (JASO) as a JASO MA2 quality product and is successfully registered into the JASO Engine Oil Standards Implementation Panel. At the same time, this product is rated as an API SN service category lubricant.

Available Size

1 Litre

Applications

- High-performance, air or water-cooled, four-stroke gasoline engines, where a highest quality oil specification of JASO MA2 is required.
- Fortified with DUAL PROTECH™ technology for enhanced cleanliness and power output.
- Also suitable for gasoline motorcycle engines that require a lower specification.

Features and Benefits

- Perfect balance between premium engine protection and engine start-up/ warm-up sequence.
- Protects engine and transmission from start to full power.
- Developed for extended engine and oil life.
- Enhanced temperature stability.
- Improves engine power and fuel efficiency.
- Reinforced engine cleanliness.
- Outstanding oil loss characteristics with enhanced seal protection.
- Optimum frictional characteristics to prevent clutch slippage.

Sinopec Xpert 20W-50 4T Motorcycle Oil (SL/MA2)

Sinopec Xpert 20W-50 4T Motorcycle Oil (SL/MA2) is formulated with premium base oils and a multifunctional additive system. It meets the requirements of the Japanese Automobile Standards Organization (JASO) as a JASO MA2 quality product and is successfully registered into the JASO Engine Oil Standards Implementation Panel. At the same time, this product is rated as an API SL service category lubricant.

Available Size

1 Litre

Applications

- High performance, air or water-cooled, four-stroke gasoline motorcycle engines, where a highest oil quality specification of JASO MA2 is required.
- Also suitable for gasoline motorcycle engines that require a lower specification.

Features and Benefits

- Protects engine and transmission from start to full power.
- Premium engine protection.
- High temperature stability.
- Improves engine power.
- Maintains engine cleanliness.
- Low oil consumption.
- Optimum frictional characteristics to prevent clutch slippage.

Sinopec Xtra 5W-40 4T Motorcycle Oil (SN/MB)

Sinopec Xtra 5W-40 4T Motorcycle Oil (SN/MB) is formulated with fully synthetic base oils and a multifunctional additive system. It meets the requirements of the Japanese Automobile Standards Organization (JASO) as a JASO MB quality product and is successfully registered into the JASO Engine Oil Standards Implementation Panel. At the same time, this product is rated as an API SN service category lubricant.

Available Size

0.8 Litre

Applications

- Designed for modern scooter engine with dry clutch.
- Fortified with DUAL PROTECH™ technology for enhanced cleanliness and power output.
- Friction modified to JASO MB specifications that provide enhanced fuel economy.

Features and Benefits

- Excellent engine start-up and warm-up sequence.
- Very good temperature stability with prolonged lubricant life.
- Protects engine from start to full power.
- Ultimate engine protection of its class.
- Excellent cleaning properties.
- Formulated for extremely low oil consumption.
- Provides seal compatibility and protection.
- Friction modified to improve engine power and fuel efficiency.

Sinopec Xtra 10W-30 4T Motorcycle Oil (SN/MB)

Sinopec Xtra 10W-30 4T Motorcycle Oil (SN/MB) is formulated with synthetic technology base oils and a multifunctional additive system. It meets the requirements of the Japanese Automobile Standards Organization (JASO) as a JASO MB quality product and is successfully registered into the JASO Engine Oil Standards Implementation Panel. At the same time, this product is rated as an API SN service category lubricant.

Available Size

0.8 Litre

Applications

- Designed for modern scooter engine with dry clutch.
- Fortified with DUAL PROTECH™ technology for enhanced cleanliness and power output.
- Friction modified to JASO MB specifications that provide enhanced fuel economy.

Features and Benefits

- Perfect balance between premium engine protection and engine start-up/ warm-up sequence.
- Protects engine from start to full power.
- Developed for extended engine durability.
- Enhanced temperature stability and outstanding oil loss characteristics.
- Reinforced engine cleanliness and returns original engine power.
- Enhanced seal protection.
- Friction modified to provide better fuel economy.

Sinopec Xtra 10W-40 4T Motorcycle Oil (SN/MB)

Sinopec Xtra 10W-40 4T Motorcycle Oil (SN/MB) is formulated with synthetic technology base oils and a multifunctional additive system. It meets the requirements of the Japanese Automobile Standards Organization (JASO) as a JASO MB quality product and is successfully registered into the JASO Engine Oil Standards Implementation Panel. At the same time, this product is rated as an API SN service category lubricant.

Available Size

0.8 Litre

Applications

- Designed for modern scooter engine with dry clutch.
- Fortified with DUAL PROTECH™ technology for enhanced cleanliness and power output.
- Friction modified to JASO MB specifications that provide enhanced fuel economy.

Features and Benefits

- Perfect balance between premium engine protection and engine start-up/ warm-up sequence.
- Protects engine from start to full power.
- Developed for extended engine durability.
- Enhanced temperature stability and outstanding oil loss characteristics.
- Reinforced engine cleanliness and returns original engine power.
- Enhanced seal protection.
- Friction modified to provide better fuel economy.

Sinopec Xtra 15W-40 4T Motorcycle Oil (SL/MB)

Sinopec Xtra 15W-40 4T Motorcycle Oil (SL/MB) is formulated with premium base oils and a multifunctional additive system. It meets the requirements of the Japanese Automobile Standards Organization (JASO) as a JASO MB quality product and is successfully registered into the JASO Engine Oil Standards Implementation Panel. At the same time, this product is rated as an API SL service category lubricant.

Available Size

0.8 Litre

Applications

- Designed for modern scooter engine with dry clutch.
- Friction modified to JASO MB specifications that provide enhanced fuel economy.

Features and Benefits

- Protects engine from start to full power.
- Reduces noise and vibration.
- High temperature stability and low oil consumption.
- Maintains engine cleanliness and returns original engine power.
- Friction modified to provide better fuel economy.
